### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification, lines 12 and 18, the "N-channel transistor 55" has been changed to --- P-channel transistor 55 ---; line 14, the word "dose" has been changed to --- does ---; line 17, the "P-channel transistor 214" has been changed to --- N-channel transistor 214 ---.

All above changes have been made by the examiner in order to place the case in condition for allowance.

2. The following is an examiner's statement of reasons for allowance:

The feature "the switching transistor is driven to be on during a writing operation by a first signal that changes between a ground level and a first voltage, and is then driven to be on after the writing operation by a second signal that changes between the ground level and a second voltage, the second voltage is higher than the first voltage" recited in claims 1, 3-4, 8-9 and 13-14 is patentable.

The method of transferring data specifically recited in claim 18 is patentable.

(Sakamoto, 6,445,632, does not teach the use of inverters 811 and 812, each being connected between ground and the respective voltage VPP via transistors 84

and 85 and the voltage VDD via transistor 86, for driving the corresponding switching transistors 214/215 and 225/226 in Fig. 6 of the present invention as recited in claims 1, 3-4, 8-9 and 13-14. Sakamoto, 6,445,632, does not teach the method specifically recited in claim 18 which corresponds to the disclosure recited in last paragraph of page 10 and first line of page 11 of the specification).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to TRONG PHAN whose telephone number is (571) 272-1794. The examiner can normally be reached on M-F (8:30-5:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, AMIR ZARABIAN can be reached on (571) 272-1852. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
